PROJECTS

Weather Application | JavaScript, HTML, CSS, Fetch API

[GitHub](#) | [Live Demo](#)

- Built a responsive weather application using JavaScript, Fetch API, and async/await to retrieve and display real-time weather data.
- Implemented input validation, asynchronous API handling, dynamic DOM updates, and network error handling for improved user experience.

BMI Calculator | HTML, CSS, JavaScript, Bootstrap

[GitHub](#) | [Live Demo](#)

- Developed a responsive BMI calculator with client-side validation for height, weight, and user inputs.
- Displayed BMI categories using dynamic messages, visual indicators, and descriptive health classifications.

OnePage Consulting | HTML, CSS, Bootstrap

[GitHub](#) | [Live Demo](#)

- Developed a responsive BMI calculator with client-side validation for height, weight, and user inputs.
- Displayed BMI categories using dynamic messages, visual indicators, and descriptive health classifications.

EXPERIENCE

Research Specialist

Chennai, India

Altrata

Feb 2023-June 2025

- Researched, compiled, and structured 5,000+ executive profiles spanning C-suite, board members, and government officials across 10,000+ global companies, ensuring completeness and accuracy to internal formatting standards.
- Verified executive career histories, board appointments, and corporate affiliations using government registries, regulatory filings, archived web sources, and international websites.
- Performed multi-source validation to resolve data discrepancies and ensure high-accuracy structured reporting.
- Monitored corporate developments including leadership transitions, mergers & acquisitions, and strategic updates to maintain real-time intelligence records.

Editorial Content Analyst

Coonoor, India

Information Evolution, Inc.

Jan 2023–Feb 2023

- Conducted detailed secondary research on global executives and corporations, consolidating findings from diverse public and regulatory sources.
- Cross-verified information across multiple platforms to maintain database integrity and compliance with editorial standards.
- Tracked executive movements and organizational changes to ensure intelligence records remained current and accurate.

Junior Research Analyst

Coonoor, India

Information Evolution, Inc.

Jan 2022–Jan 2023

- Executed structured web-based research to develop comprehensive executive profiles supported by reliable source validation.
- Collaborated with Quality Assurance teams to uphold strict data accuracy and formatting standards.
- Identified and corrected inconsistencies within corporate datasets to enhance overall data reliability.

Trainee Research Analyst

Coonoor, India

Information Evolution, Inc.

June 2021–Jan 2022

- Trained in systematic web research methodologies, source evaluation, and information authentication techniques.
- Extracted and synthesized data from global public sources to support executive intelligence reporting.
- Contributed to maintaining structured databases through accurate data entry and validation processes.
